The image features a highly decorative, symmetrical border. At the top center is a sunburst motif with multiple rays. Below this, a horizontal band contains the word "ADMINISTRATION". The bottom half of the border mirrors the top, with a sunburst at the bottom center and symmetrical scrollwork and geometric patterns on either side. The entire design is rendered in black and white.

SCHOOL

LIFE

“UNITED WE

"Twelve long, awaited years beginning with grade school and the visions of reading--and learning all there is to know. It all started one late summer day as we entered our first day of school with the expectations of being able to read, write, add, subtract, and understand all that was said to us, that very day.

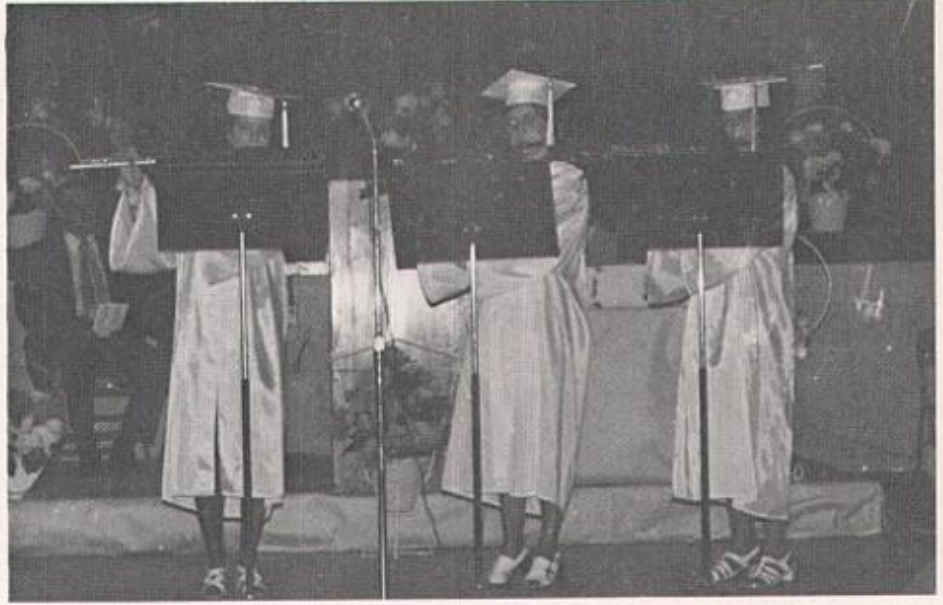

But as the years moved on and the homework increased we procured an aire about us: 'I can't wait until I'm out of school!'

Then here's the big year at last. With it's beginning there grows an excitement of only having 180 days of school left. But time moves all too fast and when the holidays are over and reality finally hits us that this is it, THE FINAL AND LAST YEAR!!! . . ."

DIVIDED WE

STAND,

"My friends, now I have something which I would like to say to you:

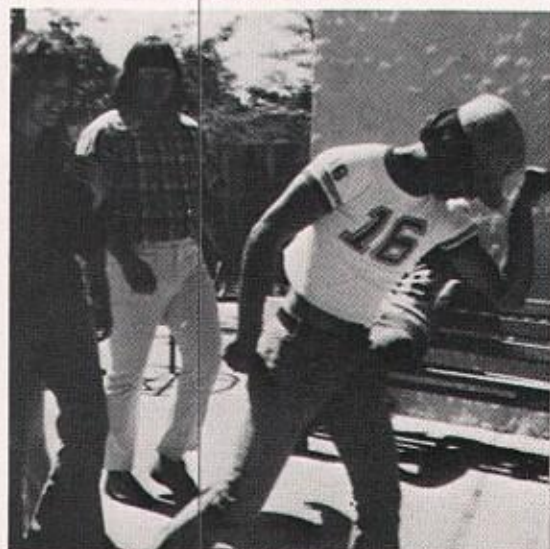

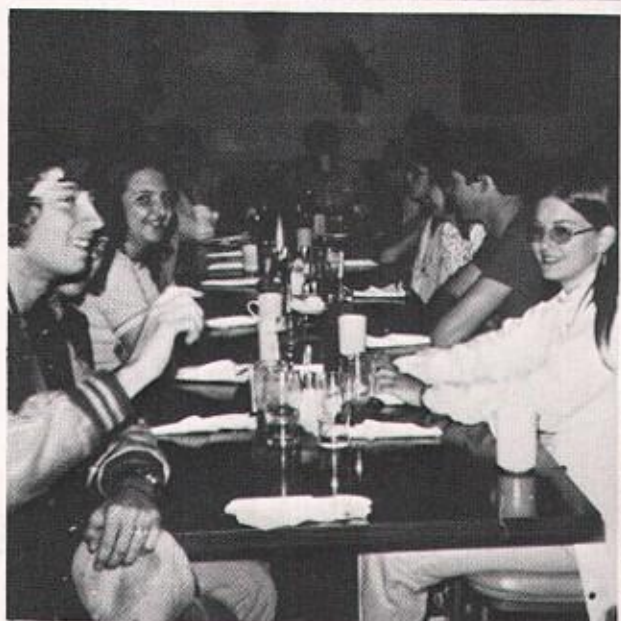

I want to thank you for all the times we had together. Thanks for your understanding and openness when I was down. You helped me to outrun my shadows and close the door to my loneliness. You helped me to become aware of myself and others around me-I have learned that you can be what you want to be; it's all up to you. I'm sorry for anything I may have said or done to hurt you in the past. I am trying hard to overcome my weaknesses. Ah-there's magic in the air-can you feel it? Think about this: Today is the first day of the rest of my life-it is almost time. You have become a part of me. I can never forget.. We have climbed many hills and trees and had many seasons in the sun-I hope we will have many more. Also remember: Things get a little easier once you understand. If you ever need a friend, when no one seems to help you, there is someone who will lift you up-you need only ask Him. May the roads rise to meet you, may the wind be at your back, and until we meet again, May God keep you in the palms of his hand. I give you my Peace and Love-It's your to keep, to share, to pass on!"

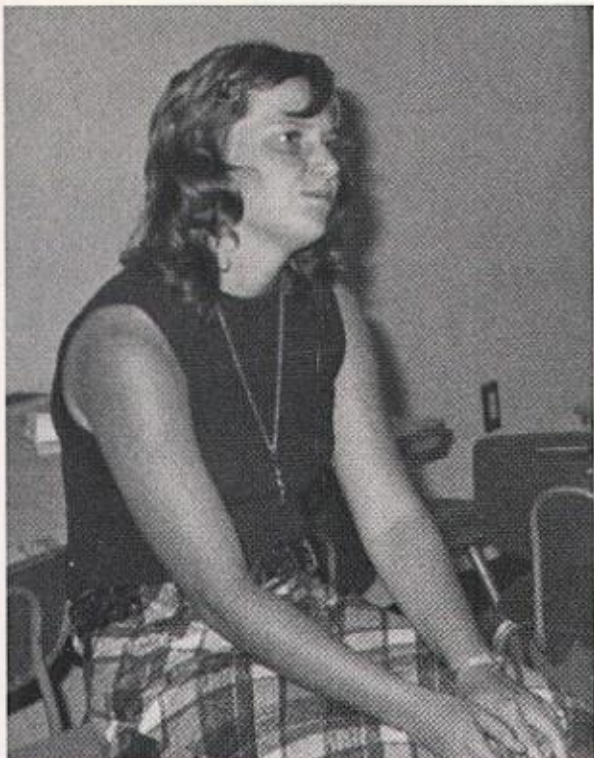

Vicky Robinson, Salutatorian

The image features a highly stylized, symmetrical decorative border. At the center is a sunburst motif with multiple concentric semi-circular arcs. Radiating from this center are thick, black, triangular rays. The background within the border is a solid black color. In the upper left and lower right corners, there are stylized cloud or wave-like shapes, each composed of several concentric semi-circular arcs. In the upper right and lower left corners, there are circular motifs: the top-left has two solid black circles, and the bottom-right has a series of concentric circles. The entire design is contained within a thin black rectangular frame.
